

WHAT IS CLAIMED IS:

1. A portable light for presenting an illuminated illustration, which comprises:

5 a.) a portable light fixture, including a housing, at least one bulb, a power supply, an electrical connection between said power supply and said at least one bulb, and an on/off switch located within said electrical connection;

10 b.) a first cover connected to said housing and covering said at least one bulb, said first cover being at least translucent, wherein at least one of said housing and said first cover includes attachment means for removably attaching a second cover thereto and at least partially atop at least part of said first cover; and

15 c.) a second cover having a distinguishable illustration thereon removably attached to at least one of said housing and said first cover, at least partially atop at least part of said first cover.

2. The portable light of claim 1 wherein said housing includes attachment means for attaching said second cover thereto.

20 3. The portable light of claim 1 wherein said first cover includes attachment means for attaching said second cover thereto.

4. The portable light of claim 3 wherein said attachment means is a linear track and said second cover is a linear strip adapted to slide into and out of said track.

5 5. The portable light of claim 1 wherein said distinguishable illustration is selected from one or more words, a logo, a stylized character and one or more numbers.

6. The portable light of claim 5 wherein said second cover is  
10 substantially transparent, said first cover is at least translucent of a first color and said distinguishable illustration is translucent and of a second color, different from said first cover.

7. The portable light of claim 1 wherein said first cover is a circular  
15 cover.

8. The portable light of claim 2 wherein said first cover is a circular cover.

9. The portable light of claim 3 wherein said first cover is a circular  
20 cover.

10. The portable light of claim 1 wherein said power source is at least one battery.

11. A portable light for presenting an illuminated illustration, which comprises:

a.) a portable light fixture, including a housing, at least one bulb, a power supply, an electrical connection between said power supply and said at least one bulb, and an on/off switch located within said electrical connection;

b.) a first cover connected to said housing and covering said at least one bulb, said first cover being at least translucent, wherein at least one of said housing and said first cover includes attachment means for removably attaching a second cover thereto and at least partially atop at least part of said first cover;

c.) a second cover having a distinguishable illustration thereon removably attached to at least one of said housing and said first cover, at least partially atop at least part of said first cover; and

d.) wall attachment means connected to said housing,

wherein a user may attach said second cover to said portable light with a distinguishable illustration, and attach it to an outside wall at night to signal a need.

12. The portable light of claim 10 wherein said housing includes attachment means for attaching said second cover thereto.

5

13. The portable light of claim 10 wherein said first cover includes attachment means for attaching said second cover thereto.

14. The portable light of claim 13 wherein said attachment means is a linear track and said second cover is a linear strip adapted to slide into and out of said track.

10

15. The portable light of claim 10 wherein said distinguishable illustration is selected from one or more words, a logo, a stylized character and one or more numbers.

15

16. The portable light of claim 15 wherein said second cover is substantially transparent, said first cover is at least translucent of a first color and said distinguishable illustration is translucent and of a second color, different from said first cover.

20

17. The portable light of claim 10 wherein said first cover is a circular cover.

18. The portable light of claim 12 wherein said first cover is a circular cover.

19. The portable light of claim 13 wherein said first cover is a circular cover.

20. The portable light of claim 11 wherein said power source is at least one battery.
